OEA President,

Effective immediately, I resign any membership I may have in all levels of the National Education Association, including the Ohio Education Association (OEA) and my local association. Pursuant to the U.S. Supreme Court's decision in *Janus v. AFSCME*, I further direct you to immediately cease the deduction of all union dues, fees, and political contributions from my wages and to refund any such funds deducted from my wages without my express authorization. Any consent for such deductions I may have previously provided is revoked, effective immediately.

I understand that OEA has arranged to be the exclusive bargaining representative for all employees in my bargaining unit and that, in exchange for this privilege, OEA must continue to represent me fairly and without discrimination in dealings with my employer and cannot, under any circumstances, deny me any wages, benefits, or protections provided under the collective bargaining agreement with my employer.

I authorize the Freedom Foundation to transmit this notice to OEA and/or my employer on my behalf. Please confirm receipt of this notice and inform me when the deductions will cease.
